PROFESSIONAL SUMMARY

Architectural Engineering graduate with 1.5 years of experience in finishing works, site execution, and construction follow-up. Practical experience in architectural design development, technical drawings, site coordination, and implementation details. Completed training with Arab Contractors and the Educational Buildings Authority, with hands-on exposure to renovation and construction activities, including contributing to the Ras El Bar El-Lisan area renovation project. Proficient in AutoCAD, 3ds Max, and V-Ray, with a strong understanding of construction methods, finishing materials, and execution requirements.

WORK EXPERIENCE

Junior Architectural Engineer – Site & Finishing Works

IONIC D.C. Architectural Office | May 2024 – Jan 2026

- Worked on architectural design development and technical drawings.
- Participated in construction and finishing works, covering different execution items and materials.
- Assisted in project coordination, site follow-up, and implementation details.
- Developed practical knowledge of construction methods, finishing systems, and Bills of Quantities (BOQs).

Site & Finishing Works Experience

1.5 Years of Practical Experience

- Gained practical experience in site execution and finishing works.
- Participated in monitoring construction activities and following up on work progress.
- Worked with finishing materials, construction methods, and implementation requirements.
- Assisted in coordinating architectural requirements with on-site execution.

Architectural Trainee – Site Execution

Arab Contractors | 3-Month Training

Ras El Bar El-Lisan Area Renovation Project

- Participated in site activities during the renovation project in Ras El Bar, Damietta.
- Contributed to the renovation project as part of the Arab Contractors team.
- Gained practical exposure to construction execution, site follow-up, and coordination.
- Assisted in monitoring construction activities and tracking work progress.
- Contributed to the architectural design of three restaurant units within the project scope.

Trainee

Educational Buildings Authority | 1-Month Training

- Completed a one-month training program with the Educational Buildings Authority.
 - Gained practical exposure to construction and architectural work environments.
-

EDUCATION

Horus University – New Damietta, Egypt

Bachelor's Degree in Architectural Engineering | 2026

Graduation Project: Urban Renewal for Artisan Housing

Graduation Project Grade: A

Graduation Project – Urban Renewal for Artisan Housing

- Developed an urban renewal proposal focused on revitalizing an existing artisan residential area.
- Worked on master planning, land-use distribution, and housing prototypes.
- Prepared architectural layouts, elevations, and urban streetscape designs.
- Focused on improving housing quality, public spaces, infrastructure, and circulation networks.
- Applied 3D visualization and detailed architectural drawings to support the design proposal.

SKILLS

TECHNICAL SKILLS

- Architectural Design & Planning
- Site Execution & Supervision
- Finishing Works & Materials
- Construction Methods & Execution
- Site Coordination & Project Follow-up
- Architectural Technical Drawings
- Construction Drawings & Details
- AutoCAD 2023 – 2D Architectural Drafting
- 3ds Max – 3D Modeling
- V-Ray – Architectural Rendering
- Bills of Quantities (BOQs)
- Quantity Take-Off
- Urban Renewal & Housing Design

SOFT SKILLS

- Communication Skills
- Teamwork & Collaboration
- Time Management
- Problem Solving
- Attention to Detail
- Adaptability & Willingness to Learn
- Responsibility & Commitment
- Ability to Work Under Pressure

LANGUAGES

- Arabic: Native
- English: Good

CERTIFICATIONS & TRAINING

Autodesk AutoCAD 2023 – Professional Course

iLearn Academy | 26 October 2024 – 21 January 2025

- Professional training in 2D drafting, architectural drawings, layouts, and detailing.
- Grade: Excellent

3ds Max – Architectural Visualization

iLearn Academy | 26 October 2024 – 21 January 2025

- Training in 3D modeling, lighting, materials, and V-Ray rendering.
- Grade: Excellent

Architectural Office Training Certificate

- One-month training covering architectural design, construction works, finishing items, and professional practice.

Arab Contractors – On-site Training

- Three-month practical training, including participation in the Ras El Bar El-Lisan area renovation project.

Educational Buildings Authority – Training

- One-month practical training.
